

Mar. 15/50.

During these last few months at Deane Parish Church, Bolton, we have had minor difficulties, due to the failure of the Bell Fittings such as Wheel Rims & Slides. We were wondering when next you had a representative in this area if you could arrange for him to call and examine the fittings in general and give us a report, with a view to having any necessary repairs undertaken. If you could let the undersigned know when the visit would be, arrangements could be made for someone to meet him at the church

Yours. etc.
C.B.
