Dear Sir,

Deane Church - Bells.

Thank you for your letter of the 9th inst. We are doubtful about moving the 3rd bellrope as it would appear the rope will then come into the heavy moulding round the trapdoor. We think the 5th, 6th and 7th ropes can be moved, if not quite so far as you suggest.

When we come up to do the job we will get our bellhanger to tighten up all the bolts.

Yours faithfully,

No expense here on 2nd.
